(b) aad (c) For increasing the productivity and production of foodgrains, crop oriented production programmes viz. Integrated Cereals Development Programme —Rice, Wheat and Coarse Cereals; and National Pulses Development Programme (NPDP) are being implemented. Besides, programmes for increasing the use of fertiliser in low consumption areas and extension of irrigation facilities are being implemented to improve the production of crops.
The Schemes focus on augmenting the availability of critical inputs through subsidised distribution of certified seeds, herbicides, plant protection chemicals, improved farm implements etc. Besides, rield demonstrations ar.d farmers training prosrammes are organised to assist the fanners and improve their skills for adoption of rainfed production technology in respect of maize and millets as well as promoting effective control of weeds through use of herbicides.

Suggestions by CTRI

1692. SHRI YERRA NARAYANASWAMY: Will the Minister" of AGRICULTURE be pleased to state:

(a) whether Central Tobacco Research Institute (CTRI) has suggested that farmen use move potash fertilizer in tobacco cultivation to reduce tar content of tobacco;

(b) whether CTRI has conducted any experimental programmes to test this finding; and

(c) if so, the details thereof?

THE MINISTCR OF STATE IN THE MINISTRY OF AGRICULTURE (SHRI ARVIND NETAM): (a) The Central Tobacco, Research Institute (CTRI) has suggested to *the,* farmers to apply only the recommended dooses of potassic fertilizer-s as given below;

Northern light soils of Andhra Pradesh 80-120 kg/ha defending upon the availability of potash in soil; Southern light soils of Andhra Pradesh—60 kgha; southern black soils of Andhra pradesh-50 kg/ha and light soils of Karnataka-80 kg|ha.

(b) Yes, Sir,

(c) Recommended doses have give) significant reduction of total particulat matter such as smoke nicotine and carbot monoxide by exogenous application to increase leaf potash (K) content to 3.5 to 4.0 per cent. The higher dose has no' indicated significant increase in yield. Tht CTRI has a continuing progamme for safer tobacco to reduce tar content.

CM-12 Variety of Tobacco

1693. SHRI YERRA -NARAYANASWAMY: Will the Minister of AGRICULTURE be pleased to state:
